Calendar 2005 – Basic Strategy

As a manufacturing company:

1. Enhance our development and technological strengths

- Concentrate new product development functions within the parent company
- Enhance existing product technologies at each production site
- Strengthen technical support capabilities, add more value

2. Raise product quality and enhance production capabilities

- Sustained implementation of structural reforms
- Further improve quality
- Further improve cost-competitiveness

Organization Change as of February 1, 2005
