

TOKYO ELECTRON EUROPE LIMITED

Field Service Engineers & Start up Engineers

Publication date: 28th of April 2023

Closing date: 30th of August 2023

Region: Italy

The ROLE in summary

Tokyo Electron is a leading global manufacturer of innovative production systems for the semiconductor industry. With a team of more than 12,700 employees in 18 different countries, we are continuously working on developing high-quality, technologically qualitative products.

As a Field Service Engineer or Start up Engineer, you will support our customers in Italy and based on business needs, across Europe.

The Start Up Engineer role usually involves extensive travel on an international basis to our European customers (50-60%).
