The Tokyo Electron Group supplies equipment for manufacturing semiconductor devices, which form the core of PCs, mobile phones, and digital devices; equipment for manufacturing LCD panels used in large-size TVs and PCs; as well as equipment for manufacturing PV cells, a product which will play a key role in preventing global warming and reducing energy consumption. We also distribute electronic components and computer networks made by the world’s leading companies. Through our provision of cutting-edge technologies, we offer value to society.

Tokyo Electron is contributing to the healthy development of industry and society and the resolution of environmental problems by recognizing the social problems related to our business activities, communicating with the rest of society, and taking steadfast action to address those issues.

Tokyo Electron’s Businesses and Initiatives Related to Social Issues

This section introduces Tokyo Electron’s businesses and approach to the solution of social issues.

Product- and Service-related Initiatives to Respond to Global Environmental Issues

We are using our technologies to contribute to the solution of environmental issues, such as global warming.

Reducing the Environmental Impact of Our Products

Tokyo Electron is engaged in efforts related to the use-phase of our products, the phase with the greatest environmental impact within their lifecycle, including enhancing energy efficiency.

Reducing the Environmental Impact of Plants and Offices

With the goal of reducing the environmental impact of our business activities, we are actively taking steps to prevent global warming, conserve resources, and reduce the amount of waste generated.

Labor Safety and Health

As one aspect of our corporate social responsibilities, we are promoting measures to ensure the health and safety of everyone involved in our corporate activities.
Developing Human Resources
We strive to create an employee-friendly workplace that will enable all of our employees to reach their full potential.

Creating an Employee-friendly Working Environment
We are expanding our childcare leave system

Cooperation with Suppliers
In order to achieve our corporate mission, which includes purchasing products that are safe, healthy, and environment-friendly, we have established relationships of trust and cooperation with our suppliers, achieving growth together with them.

Building Trust with Local Communities
We strive to coexist in harmony with the local communities where we engage in business activities, both in Japan and overseas, while also fostering relationships of trust with them.
