

Segment Information

TOKYO ELECTRON AT A GLANCE

TOKYO ELECTRON AT A GLANCE

Consolidated Net Sales

Summary of Business

Semiconductor Production Equipment

Semiconductor devices (IC chips) are the key components of smartphones, tablets and other digital products. Tokyo Electron offers a wide range of equipment for producing these devices, along with superior technical support and service.

The product lineup comprises six product groups: coaters/developers, plasma etch systems, thermal processing systems, single wafer deposition systems, cleaning systems used in wafer processes, and wafer probers used in the wafer testing process. Moreover, Tokyo Electron is expanding the product lineup for advanced packaging processes, including equipment used for through-silicon via (TSV) processes.

Main Products

- **Coater/Developer**
- **Plasma Etch System**
Dielectric Etch System, Silicon Etch System
- **Thermal Processing System**
- **Single Wafer Deposition System**
CVD System, Plasma Processing System

- **Cleaning System**
Auto Wet Station, Single Wafer Cleaning System, Pre-clean System, Scrubber System
- **Wafer Prober**

Summary of Business

FPD/PV Production Equipment

Tokyo Electron supplies flat panel display (FPD) production equipment used to manufacture displays for PCs, LCD TVs and other electronic devices, along with solid technical support and service.

The product lineup includes FPD coater/developer and plasma etch/ash system. Photovoltaic cells (PV) are in the spotlight these days as an environmentally friendly form of clean energy. In FY2009, Tokyo Electron added PV production equipment as a new field of operations.

Main Products

- **FPD Coater/Developer**
- **FPD Plasma Etch/Ash System**
- **Plasma CVD System for Thin-film Silicon PV Cells**
- **End-to-end Thin-film Silicon PV Solutions** (as Swiss company Oerlikon Solar's exclusive representative for the Asia/Oceania region)

Summary of Business

Electronic Components and Computer Networks

Tokyo Electron has developed a new type of dual model for this business: the trading business handles sales, in which it acts as a distributor of a wide array of sophisticated electronic components and computer network equipment, while the development business designs and develops products in response to customer needs, as well as our own in-house brand products. Business operations for this segment are handled by Tokyo Electron Device Limited.

Main Products

- **Semiconductor Products**
- **Other Electronic Components**
- **Computer Networks**
- **Software**
