

“Declaration of Partnership Building”

To build new partnerships by promoting collaboration and mutual prosperity with our supply chain partners and businesses striving to create value, we declare that we will focus on the following items.

1. Coexistence and mutual prosperity across the entire supply chain, and new collaborations that transcend size and affiliation.

By engaging not only with direct business partners but also with those deeper within the supply chain, we aim to improve added value throughout the entire supply chain. Furthermore, through collaboration that transcends existing business relationships and company size, we strive to build a mutually beneficial relationship with our business partners.

(Individual item)

- Inter-company collaboration (open innovation, mutual understanding and close communication with business partners, dissemination of business plans and market trends, etc.)
- IT Implementation Support (Construction of common EDI, mutual use of data, information security, product security, advice and support for cybersecurity measures, etc.)
- Green initiatives (joint development of decarbonization and low-carbon technologies, advice and support for energy-saving diagnostics, decarbonization and low-carbonization of production processes, green procurement, etc.), E-COMPASS initiatives (in collaboration with partner companies, aiming for value co-creation throughout the entire supply chain with an environmental focus not only on products but also on all business activities)
- BCP/Business Continuity (Advising business partners on developing business continuity plans in the event of a disaster, etc.)

2. Compliance with “Basic Policy”

We will comply with desirable business practices between commissioning companies and small and medium-sized subcontracting companies (“Basic Policy” based on Small and Medium-Sized Enterprises Business Enhancement Act), including improvements to ordering methods, methods for determining consideration, methods for payment, terms of trade related to molds, etc., and the protection of intellectual property and the fairness of transactions, and will actively work to correct business practices and trade practices that hinder the building of partnerships with our business partners.

3. Other (optional):

Our company aims to ensure that the entire supply chain is sound and sustainable, and we conduct procurement and related activities in accordance with procurement policies formulated from various perspectives based on laws and social norms.

Furthermore, we strive to build trusting relationships with our business partners and work together to develop operations that comply with global standards, thereby increasing added value in our supply chain.

April 10, 2026

We declare this after understanding the contents of the "Basic Policy" based on Small and Medium-Sized Enterprises Business Enhancement Act.

Tokyo Electron Kyushu Ltd. President, Representative Director Shinichi Hayashi
