Editorial Policy
This report aims to communicate all stakeholders the responsibilities and roles that Tokyo Electron has in society, and the various activities it implements in order to contribute to value creation. It describes global initiatives aimed at developing and resolving issues for industry and society. In fiscal year 2021, following a review of our material issues, we settled on the four areas of product competitiveness, customer responsiveness, higher productivity, and management foundation, which supports these other areas. The report clarifies priority themes, short- and medium-term goals, and SDGs initiatives for each of the material issues. Data sets are included at the end of the report, with an accompanying third-party assurance report attached for those items that are considered to be of particularly high importance.

We remain committed to understanding all of our stakeholders’ demands and disclosing information timely and transparently. For more detailed information, please consult our official website.

Tokyo Electron’s Logo
Tokyo Electron’s logo was created as a symbol for our next stage of growth, based on our corporate philosophy and vision. This simple design represents our reliability and the engaging presence we bring to a competitive industry. The green square at the center of the logo signifies the core of innovation supporting development in industry; the translucent blue expresses our leading-edge advanced technology.

We strive to contribute to the development of a dream-inspiring society through our leading-edge technology and reliable service and support.
