Tokyo Electron operates worldwide as a leading company in semiconductor and flat panel display (FPD) production equipment. By providing the Best Products and Best Technical Service, we are aiming for medium- to long-term profit expansion and continuous corporate value enhancement. We are also practicing our Corporate Philosophy by contributing to developing a sustainable society through our business.

**Company Overview**

Tokyo Electron (often referred to as TEL) is a global leader in the semiconductor manufacturing equipment industry, with operations in Japan, North America, Europe, China, and other regions. The company has a long history dating back to the 1960s, when it began manufacturing diffusion furnace equipment. Over the years, Tokyo Electron has expanded its product portfolio to include a wide range of equipment for semiconductor manufacturing processes.

### Number of Sites (As of March 31, 2021)
- **Head office**
- **Branch, Office (including Field Services), Sales Office**
  - Japan: 7 companies at 26 sites
  - Overseas: 21 companies at 50 sites in 17 countries and regions
  - Worldwide total: 28 companies at 76 sites in 18 countries and regions (consolidated)

### History
- **1960s**
  - Founded as technical specialized trading company
- **1970s**
  - Mainframe Computer
  - Single chip Microprocessor
- **1980s**
  - Personal Computer
  - Accelerating globalization
- **1990s**
  - Aspiration toward innovation and new growth
- **2000s**
  - Shifting to a full-scale manufacturer
  - Mobile Phone
  - Digital Consumer Electronics
- **2010s**
  - Big Data
- **2020s~**
  - Focusing on leading-edge equipment

### Sales by Region (Consolidated)
- **Southeast Asia and Others**: 52.4 billion yen (28.5%)
- **Europe**: 398.4 billion yen (21.9%)
- **North America**: 152.0 billion yen (20.6%)
- **Japan**: 1,399.1 billion yen (fiscal year ended March 31, 2021)
- **South Korea**: 285.2 billion yen (20.4%)
- **Europe**: 398.4 billion yen (21.9%)
- **North America**: 152.0 billion yen (20.6%)
- **Japan**: 1,399.1 billion yen (fiscal year ended March 31, 2021)
- **China**: 3,846 people

### Number of Employees by Region (Consolidated)
- **Japan**: 5,41 people
- **Asia**: 14,479 people (fiscal year ended March 31, 2021)

### Semiconductors Manufacturing Process and Our Main Products
- **Wafer Process (Front-end)**
- **Assembly and Test Process (Back-end)**

### FPD Production Equipment
- **Coater/Developer**
- **Plasma Etch/Ash System**
- **Contact Formation**
- **Wafer Probe Testing**
- **Completed Integrated Circuit**

Tokyo Electron is committed to continuous innovation and development, ensuring the company remains at the forefront of the semiconductor equipment industry, supporting global technological advancements.
